Eastern Health

Infrastructure Support

Project Engineer – Planning & Engineering

Temporary, Full-Time for two years with the possibility of extension

Eastern Health is the largest integrated health authority in Newfoundland and Labrador and is seeking leaders to join its Infrastructure Support team. The successful individual will employ their considerable experience in developing and managing a broad portfolio of projects in a full service healthcare setting. The incumbent will be a self-starter and have the ability to operate with a high level of independence in a dynamic environment. This position offers considerable opportunity for career development and advancement.

Duties: Reporting to the Manager - Planning and Engineering Support, the incumbent is responsible for the planning and supervision of large and small projects involving health facilities and other infrastructure systems from concept definition to post implementation. A core function of this position is communication with key stakeholders, within the RHA, such as healthcare providers, management, administration and technical staff. Responsibilities will also include indentifying areas where planning, engineering and architectural solutions are needed. This will include the identification of infrastructure problems, conducting or managing feasibility studies, problem definition, overseeing the development of effective planning and design solutions and measuring effectiveness. The successful candidate will manage divisional staff and engage consultants and others to resolve infrastructure issues.

Qualifications: The successful applicant will possess a Bachelor's Degree in Engineering (civil, electrical, industrial or mechanical) or architecture and be a member in good standing with the professional association. The applicant will preferably have 2 to 5 years project management experience, relevant training in estimating, scheduling, construction management, contract law and project management. Demonstrated progressive advancement in leadership development; ability to demonstrate a superior knowledge of leadership techniques and show exceptional leadership ability. Project Management Professional designation would be considered an asset. Travel throughout the region is required. Candidates with an equivalent level of education and experience may also be considered.

Salary: In accordance with the Hay Management Pay Plan
Competition #: 2012002127

To apply for the above position, please forward resume stating qualifications, experience, references and the competition number to the undersigned on or before the August 3, 2012:
