Temporary Closure of Roadway to Main Entrance of St. Clare’s Mercy Hospital

January 30, 2021 - St. John’s, NL: Eastern Health advises the public that the main entrance roadway in front of St. Clare’s Mercy Hospital will continue be closed to vehicle traffic from 7:00 a.m. until approximately 2:00 p.m. on Sunday, January 31. This closure is necessary to facilitate the moving of materials to the 7th floor roof of the hospital for repairs to the heat recovery system.

The movement of materials to the 7th floor roof will involve the setup of a crane near the exit portion of the main entrance roadway in front of the hospital. The main entrance will remain open during this time and pedestrian access will be available via Ricketts Road and St. Clare Avenue. Patients, visitors and employees are advised to proceed with caution in these areas. Signage will be posted, barricades will be in place, and security will be on site to redirect patients and visitors as appropriate.

Individuals requiring wheelchair access to the building will be permitted access to the main entrance roadway under the direction of security on site.

Eastern Health thanks the public and employees for their cooperation and apologizes for any inconvenience this may cause.
