Work Begins to Renovate Outpatient Clinic Waiting Area at St. Clare’s Mercy Hospital

February 3, 2015 – St. John’s, NL: Eastern Health advises the public that starting tomorrow, February 4, 2015, scheduled work will begin to renovate the waiting area in the outpatient clinic on the second floor at the St. Clare’s Mercy Hospital in St. John’s, NL. This project was made possible with funding from the Health Care Foundation and is expected to be completed within approximately four weeks.

During the construction period, the outpatient clinic registration and waiting area will be temporarily relocated to the main hospital admissions office, near the main entrance. Signage will be in place to direct individuals to the appropriate area.

Although normal construction-related safeguards will be in place during this time, renovations may generate noise from 8 a.m. to 4 p.m. daily.

Eastern Health apologizes for any inconvenience the scheduled renovations may cause.
