

PUBLIC SERVICE ANNOUNCEMENT

Services to Resume at the U.S. Memorial Health Centre

March 15, 2021 – St. John's, NL: Eastern Health advises the public that all health-care services at the U.S. Memorial Health Centre in St. Lawrence are resuming as of today, March 15. The return of services is a result of areas outside of the Avalon Peninsula moving to Alert Level 3.

Effective immediately:

- Emergency services will be available from 24 hours a day, seven days a week.
- Medical imaging services will resume by appointment only.
- Blood collection is by appointment only at the U.S. Memorial Health Centre. The number to call for appointments is (709) 873-2330.
- Virtual care will continue for family practice; however, in person physician visits may increase if needed. Please discuss your health needs with your family physician to determine if a face-to-face visit is needed.

These changes were necessary to keep patients, residents and clients safe during Alert Level 5. Eastern Health thanks patients and their families for their support and understanding as we work to resume normal operations and services.
